

## Time to Talk

- We walked around our community and saw lots of signs of autumn. Ask your family about all the things that happen during autumn and if you have any celebrations that you celebrate.
- What words rhyme with: seed, nut, tree, blow, red and fall?
- Act out being a leaf on a tree and show what happens to it in autumn.
- Talk about the fruits and vegetables that are harvested at this time.

- What animals hibernate or migrate in your country? Where do they go? What happens to those that stay?
